

Pacific Northwest Endurance Rides (PNER)

2025 Veterinary CE

Thursday, Feb 20, 2025; 6-8pm

Eagle Crest Resort. Redmond, Oregon

(The High Desert Hospitality Room) - Small bites provided

Join your fellow veterinarians for an engaging and informative discussion on **The Basic Bones of Calcium Metabolism**

Dr. Susan Garlinghouse DVM, MS (Equine Physiology)

Dr. Susan Garlinghouse, DVM, is a distinguished equine veterinarian and nutritionist with over two decades of expertise in horse health and performance. Renowned for her groundbreaking research on nutrition's impact on endurance horses, she has made significant contributions to understanding body condition scoring and dietary management in competitive equine athletics. Dr. Garlinghouse is a respected speaker, researcher, and practicing veterinarian who provides comprehensive care and education, helping horse owners optimize their animals' health, nutrition, and performance potential. Her holistic approach combines clinical veterinary practice with deep nutritional insights, making her a leading authority in equine wellness.
